Breathable Acrylic Water Based Floor Sealer

FeRFA Type 1 System
DFT = <150µ

Typical Environment

- Light Loads
- Moderate Loads
- Increased Loads
- Heavy Loads

System Properties:

- Water based
- Damp tolerant
- Dustproofs
- For mineral substrates
- Fast drying
- Surface strengthening effect
- For walls and floors
- Easy to maintain
- Very economic

Suitable for Surfaces:

- Clean concrete without surface sealer
- Open textured screeds
- Prepared concrete by ball blasting
- Prepared concrete by grinding
- Walls

**Total**

**Notes:** Application rates and coverage are theoretical and do not allow for surface profile variation, wastage or variation in application technique. In the case of high substrate roughness you should allow for additional levelling material to be used.
